

Amendments to the Specification:

Please amend page 6, paragraph 0023 of the specification with the following:

[0023] FIG. 8 is another close-up view of a portion of the communication assembly and FIG. 9 shows an assembly cover in a closed position with a portion of the communication assembly removed to illustrate an attachment leg.

Please amend page 9, paragraph 0033 of the specification with the following:

[0033] Examples of specific embodiments of covers according to aspects of the invention are shown in FIGS. 1-8 1-9. One embodiment is shown in FIGS. 1-2 and another embodiment is shown in FIGS. 3-8 3-9. Various features associated with each embodiment will be discussed in turn below.

Please amend pages 10 and 11, paragraph 0039 of the specification with the following:

[0039] Another embodiment of a cover 16 according to aspects of the invention is shown in FIGS. 3-8 3-9. Again, the cover generally has a flap 22 and at least one attachment legs leg 24. As shown in FIG. 3, the flap 22 can be curved or can be contoured in any of a number of ways. When in the second position, the flap 22 can be disposed substantially in the same plane relative to the attachment legs 24. When in the first position, the flap 22 can be disposed substantially at 90 degrees relative to the attachment legs 24. This feature is illustrated in FIG. 9, where the attachment legs 24 are illustrated with a dashed outline.

Please amend pages 11 and 12, paragraph 0044 of the specification with the following:

[0044] Again, the embodiments of the invention shown in FIGS. ~~1-8~~ 1-9 are merely non-exhaustive examples of accessory covers that are embraced within the scope of the invention. Aspects of the invention are not limited to these embodiments; other accessory covers can fall within the scope of the invention. Further, the features described in connection with the embodiment disclosed in connection with FIGS. 1-2 can be applied in any combination with the features disclosed in connection with the embodiment shown in FIGS. ~~3-8~~ 3-9. Similarly, the features described in connection with the embodiment disclosed in connection with FIGS. ~~3-8~~ 3-9 can be applied in any combination with the features disclosed in connection with the embodiment shown in FIGS. 1-2.
